PARKING

132 spaces

PLANNING USE

F1 education

ACCESS

A24 / A27

## PROPERTY SNAPSHOT

BROADWATER FACTS

Broadwater Road is a vacant education campus on a gateway A24 site in Worthing. The existing scale, parking, access and building mix support a credible SEN school conversation, subject to operator review.

## INVESTMENT CASE

DEMAND-LED

### 01. Demand Pressure

West Sussex EHCPs have grown from c.3,400 in 2015 to 10,000+ in 2025, with specialist placement pressure rising.

### 02. Commissioner Logic

Out-of-county SEMH placements and high transport costs create a strong rationale for local specialist capacity.

### 03. Operator Appeal

Existing F1 use, campus scale, parking and vocational space support phased entry for a specialist provider.

## SEN SUITABILITY CHECKLIST

BUILDING + USE CASE

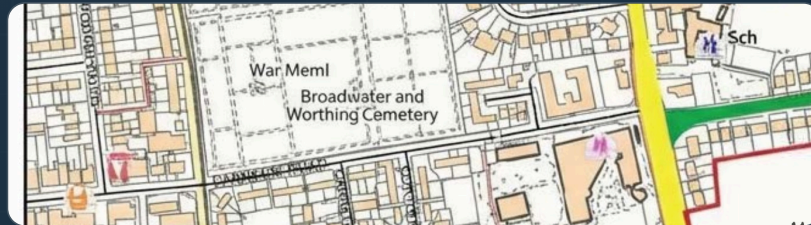

- Multi-building campus supports phased opening, separation of cohorts and specialist pathways.
- Existing education use and vacant accommodation reduce the route to occupation.
- Vocational workshops can support post-16 SEND, life-skills and employability training.
- A24/A27 access and 132 spaces support staff, transport, minibus and visitor movement.
- Safeguarding layout, outdoor provision and exact pupil capacity require operator review.

## DEMAND EVIDENCE

WSCC-LED CASE

| EVIDENCE AREA   | DATA POINT                                         | RELEVANCE                                    |
|-----------------|----------------------------------------------------|----------------------------------------------|
| Budget pressure | Projected DSG deficit of £413.9m by March 2028.    | Drives need to reduce high-cost placements.  |
| SEMH placements | 61% previously reported as educated out of county. | Shows local supply gap for relevant pupils.  |
| EHCP growth     | c.3,400 in 2015 to 10,000+ in 2025.                | Indicates sustained statutory SEND demand.   |
| Transport cost  | c.£28m annual SEND home-to-school transport.       | Closer provision can reduce travel pressure. |

## KEY RISKS

NEEDS CHECKING

- Final SEN type, pupil profile and capacity need operator-led validation.
- Highways, minibus circulation, drop-off and safeguarding routes require testing.
- Outdoor space, boundaries and secure recreation areas need physical inspection.
- Capex, phasing, M&E condition and compliance costs must be confirmed.
- Any planning, licensing or statutory education approvals need specialist advice.

## RECOMMENDED NEXT STEPS

- Commission SEN operator walkthrough and floorplan capacity review.
- Map nearby special schools, AP/PRU provision and referral flows.
- Confirm highways, transport, parking and drop-off strategy.
- Validate WSCC commissioning evidence against current published material.
- Prepare full investor pack if operator feedback is positive.

## Investor Summary

Broadwater Road presents a strong SEN school opportunity because the property is already education-led and the demand case is rooted in commissioner pressure, not speculative local preference.
